*\*MSZ-FH50VE. This offer is available while stocks last. Site visit required. Price includes GST and is based on back to back installation, we will always agree any additional costs with you.*

Installed from  
**\$2,980\***  
**FH50**

With shorter days and temperatures dropping, winter is truly looming. Don't let the winter chill leave you shivering indoors. Keep cosy during the colder months with the Deluxe FH50; with advanced features that work to keep you comfortable at the touch of a button, no matter the winter weather.

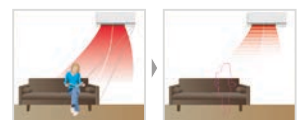

### 3D i-See Sensor

Scans a room to detect exactly where people are and directs the perfect amount of customised heating or cooling where you need it most.

### Energy Saving Mode

In Energy Saving Mode, the 3D i-See Sensor's intuitive occupancy sensor can detect a period of absence; reducing the set temperature by 2°C, which can lead to energy savings up to 10%.

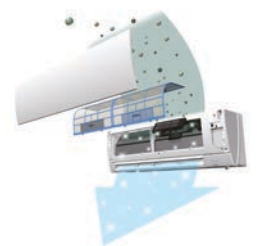

### Dual Split Vanes

Enjoy truly customised comfort with Dual Split Vanes. Each vane can be independently adjusted to quickly direct airflow where you need it most - including two different directions at the same time!

### Advanced Plasma Quad Filtration

With Advanced Plasma Quad Filtration you can enjoy cleaner, fresher air; so you can breathe easy all winter long!

### Optional Wi-Fi Control

Now you'll always return to total home comfort no matter where you are!
